FOR IMMEDIATE RELEASE

HD Supply Waterworks Gears Up for Growth in Fusible Piping with New Hire

November 26, 2013, ST. LOUIS, Mo. – HD Supply Waterworks hires Paul Dreher to lead its fusible piping systems strategy. Dreher will drive the Company’s growth in fusible piping with overall responsibility for its national market presence.

“Paul’s national leadership and deep-seated industry experience will add valuable perspective to our already strong team of regional-based fusible leaders,” said HD Supply Waterworks President Steve LeClair. “As we continue to invest in this specialty market, we have a great opportunity to expand service to our customers and be their first choice in fusible piping.”

HD Supply Waterworks is a leading distributor of water, sewer, fire protection, and storm drain products and offers industry-leading fusible piping solutions and equipment. It also employs field experts that provide customer consultation and training. The Company has seen tremendous growth in fusible piping over the last few years and was recently recognized with prestigious awards from McElroy Manufacturing, Inc., a leading fusible equipment manufacturer, for the Company’s strong sales and solid reputation.

About HD Supply Waterworks

HD Supply Waterworks (hds.waterworks.com) is the nation’s leader in the water, wastewater, storm, and fire protection industries. It distributes a complete line of water, sewer, fire protection, and storm drain products that are integral to building, repairing, and maintaining water and wastewater systems. HD Supply Waterworks’ products are part of the basic municipal infrastructure required to support population and economic growth and residential and commercial construction. The Company has more than 2,500 associates and operates more than 240 branches in 44 states.

About HD Supply

HD Supply (www.hdsupply.com) is one of the largest industrial distributors in North America. The company provides a broad range of products and value-add services to approximately 500,000 customers with leadership positions in maintenance, repair and operations, infrastructure and power and specialty construction sectors. With more than 600 locations across 46 states and nine Canadian provinces, the company’s approximately 15,000 associates provide localized, customer-driven services including jobsite delivery, will call or direct-ship options, diversified logistics and innovative solutions that contribute to its customers’ success.
