FOR IMMEDIATE RELEASE

**HD Supply Power Solutions Opens New Indiana Location,
Expands Operations in Tennessee**

ATLANTA – Dec. 4, 2013 – HD Supply Power Solutions, a leading provider of an extensive and dynamic portfolio of products, services and solutions for Public Power, Investor-Owned Utilities, Construction and Industrial customers, opened a new location in Indiana and expanded in Tennessee to support utility customers.

The Indiana location at 503 S. Main St. in Linden, just south of Lafayette, recently hosted a trade show and open house. It will primarily provide inventory management for Tipmont REMC, a member-owned electric cooperative that serves some 21,800 members primarily in Tippecanoe, Fountain and Montgomery counties as well as portions of Benton, Boone, Carroll, Clinton and White counties.

The expanded location in Tennessee at 4100 Central Ave. Pike in Knoxville held a similar event. The newly renovated 20,000-square-foot warehouse doubled to accommodate the needs of electric utilities in the Knoxville area, which has been growing to support increased construction.

“We are proud of the new location in Indiana and of the expansion in Tennessee,” said Bill Lawyer, regional vice president-sales, HD Supply Power Solutions, at both recent events. “We excel at material management and distribution, and will be working closely with utilities in these markets during the upcoming storm season to optimize power restoration to customers,” he added.
