**ATLANTA, GA – March 25, 2014** – HD Supply Holdings, Inc. (NASDAQ: HDS), one of the largest industrial distributors in North America, today reported Net sales of \$8.5 billion, for the full-year fiscal 2013 ended February 2, 2014, an increase of \$732 million or 9.4 percent, as compared to fiscal 2012 when adjusting fiscal 2012 to eliminate the impact of the 53<sup>rd</sup> week and the Crown Bolt contract amendment. Organic sales growth was 8.1 percent in fiscal 2013 versus fiscal 2012 As Adjusted. The company believes its organic sales performance represents growth of approximately 600 basis points in excess of its estimate of annual market growth.

“I am very pleased with our 2013 performance,” stated Joe DeAngelo, CEO of HD Supply. “We delivered 9 percent sales growth and 21 percent Adjusted EBITDA growth, as adjusted for unusual items, despite a challenging and uncertain market environment. Our focused growth strategies and investments coupled with our differentiated customer-centric business model continue to deliver profitable growth in excess of our estimate of market growth.”

There are several unusual items that impact the comparability of the results of fiscal 2013 and fiscal 2012.

- Crown Bolt goodwill and other intangible asset impairment, which represents \$152 million Operating loss

## Full-Year Results

The following are results for the full-year of fiscal 2013 compared to the full-year of fiscal 2012, including adjusted results where it aids in comparability. A reconciliation of adjusted results to GAAP is provided in the Non-GAAP Financial Measures section of the release.

Net sales for fiscal 2013 of \$8.5 billion, increased \$732 million or 9.4 percent, as compared to fiscal 2012 As Adjusted. Organic sales growth was 8.1 percent in fiscal 2013 as compared to fiscal 2012 As Adjusted. The Net sales increase was primarily due to growth initiatives at each of our businesses and, to a lesser extent, increases in market volume and recent acquisitions, partially offset by unfavorable weather conditions, particularly the severe winter weather experienced during the fourth quarter of fiscal 2013 and the unusually cooler weather in the summer months, impacting HVAC-related sales.

Gross profit increased \$258 million, or 11.6 percent, to \$2,475 million for fiscal 2013 As Adjusted. Gross profit increased to 29.2 percent of Net sales in fiscal 2013 As Adjusted, up 60 basis points from 28.6 percent in fiscal 2012 As Adjusted.

Operating income increased \$229 million, or 84.5 percent, during fiscal 2013 As Adjusted, as compared to fiscal 2012 As Adjusted. Operating income as a percentage of Net sales increased approximately 240 basis points during fiscal 2013 As Adjusted as compared to fiscal 2012 As Adjusted. The improvement was driven by the reduction in depreciation and amortization expense and improvements in gross margins.

Adjusted EBITDA of \$764 million increased \$134 million, or 21.3 percent, in fiscal 2013 as compared to fiscal 2012 As Adjusted. The improvement reflects the company's focus on margin expansion and operational excellence while at the same time investing for future growth.

Net loss for fiscal 2013 was \$218 million, which included an \$87 million loss on extinguishment and modification of debt and a \$12 million restructuring charge. Net loss for fiscal 2012 was \$1,179 million, which included a \$709 million loss on extinguishment of debt and a \$152 million impairment charge.

Adjusted net income for fiscal 2013 was \$99 million, an improvement of \$228 million as compared to an Adjusted net loss of \$129 million in fiscal 2012. The increase in Adjusted net income is attributable to sales growth, improving gross margins, and a reduction in interest expense. Adjusted net income per diluted share in fiscal 2013 was \$0.58 per share, as compared to an Adjusted net loss per diluted share of \$0.99 in fiscal 2012.

As of February 2, 2014, HD Supply's combined liquidity of approximately \$994 million was comprised of \$115 million in cash and cash equivalents and \$879 million of additional available borrowings under HD Supply, Inc.'s senior asset-backed lending facility, based on qualifying inventory and receivables.

"HD Supply's fiscal 2013 fourth-quarter represents the fifteenth consecutive quarter of year-over-year average daily sales growth despite the impact of severe winter weather and continued sluggishness in our end markets," added DeAngelo. "Our seasoned teams are focused on executing our controllable growth initiatives that deliver growth despite the uncontrollable environment. We took proactive actions to align our costs to market uncertainties as well as streamlined areas of the business to increase our focus on value enhancing activities."

### Litemor Discontinued Operations Impact on Guidance

During the fourth quarter of fiscal 2013, the company decided to dispose of Litemor and, therefore, reflected the results of Litemor as a discontinued operation. In accordance with generally accepted accounting principles, the presentation of discontinued operations includes revenues and expenses of the discontinued operations, net of tax, as one line item on the Income Statement. All Income Statements presented have been revised to reflect this presentation.

The guidance we previously provided for our 2013 performance included the results of our Litemor business. The following table presents our fiscal 2013 results adjusted to include the results of Litemor (amounts in millions, except per share data).

	Fiscal 2013			Previous Guidance
	As Reported	Litemor Results	Adjusted	
Net Sales	\$ 8,487	\$ 82	<b>\$ 8,569</b>	<b>\$ 8,500 - \$ 8,575</b>

### Adjusted EBITDA and Adjusted net income (loss)

We present Adjusted EBITDA because it is a primary measure used by management to evaluate operating performance. We believe the presentation of Adjusted EBITDA enhances investors' overall understanding of the financial performance of our business. Adjusted EBITDA is not a recognized term under GAAP and does not purport to be an alternative to Net income (loss) as a measure of operating performance. In addition, we present Adjusted net income (loss) to measure our overall profitability as we believe it is an important measure of our performance. Adjusted net income (loss) is not a recognized term under GAAP and does not purport to be an alternative to Net income (loss) as a measure of operating performance. Adjusted net income (loss) is defined as Net income (loss) less Income (loss) from discontinued operations, net of tax, further adjusted for certain non-cash, non-recurring or unusual items, net of tax. We compensate for the limitations of using non-GAAP financial measures by using them to supplement GAAP results to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone. Because not all companies use identical calculations, our presentation of Adjusted EBITDA and Adjusted net income (loss) may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is based on "Consolidated EBITDA," a measure which is defined in our senior credit facilities and used in calculating financial ratios in several material debt covenants. Adjusted EBITDA is defined as Net income (loss) less Income (loss) from discontinued operations, net of tax, plus (i) Interest expense and Interest income, net, (ii) Provision (benefit)

for income taxes, (iii) depreciation and amortization and further adjusted to exclude non-cash items and certain other adjustments to Consolidated Net Income permitted in calculating Consolidated EBITDA under our senior credit facilities.

Adjusted EBITDA and Adjusted net income (loss) have limitations as analytical tools and should not be considered in isolation or as substitutes for analyzing our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA and Adjusted net income (loss) do not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect our interest expense, or the requirements necessary to service interest or principal payments on our debt;
- Adjusted EBITDA does not reflect our income tax expenses or the cash requirements to pay our taxes;
- Adjusted EBITDA and Adjusted net income (loss) do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments; and
- Although depreciation and amortization charges are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements.
