FOR IMMEDIATE RELEASE

HD Supply Waterworks Expands National Footprint with New Maine Facility

ST. LOUIS, Mo –March 19, 2014 – HD Supply Waterworks, an HD Supply business and the nation’s leader in the water, wastewater, storm, and fire protection industries, today announced it has opened a new location in Westbrook, ME. This is the company’s first physical location in the state, adding to its nationwide presence of more than 240 branches.

“We are committed to strategic growth that enables us to provide trusted local service,” said HD Supply Waterworks President Steve LeClair. “Our new location and team, with more than 80 years of combined industry experience, signifies our commitment to our perspective and existing customers in this viable market.”

The new branch is located at 29 Eisenhower Drive in Westbrook with approximately 14,000 square feet of warehouse, counter and office space in addition to outside storage.

In addition, as part of HD Supply’s growth strategy, HD Supply Waterworks recently expanded its footprint in San Antonio, Texas, and Portland, Ore., to support its Fire Protection business.

About HD Supply Waterworks

HD Supply Waterworks (www.hdswaterworks.com) is the nation’s largest distributor of water, sewer, storm, fusible piping, and fire protection infrastructure products that serves the needs of both contractors and municipalities in all aspects of the water, wastewater, clean water, landfill, energy, and fire protection industries. HD Supply Waterworks operates more than 240 branches serving both the United States and the Caribbean. HD Supply Waterworks is an operating division of HD Supply (www.hdsupply.com), a leading industrial distribution company, providing a broad range of products and services to professional customers in the maintenance, repair and operations, infrastructure and power, and specialty construction sectors.
